

## ATTEMPTS TO BREAK THROUGH LINES FAIL

### GERMANIC ARMIES SUFFER HEAVY LOSSES IN THE CARPATHIANS

Berlin Reports Germans Silence Two  
Forts at Ossowetz—French Con-  
tinue Offensive—Resume Bom-  
bardment of Dardanelles—Russ  
Take Turkish Port.

London, March 3.—(9:50 p. m.)  
—In their determination to relieve  
Przemysl and drive the Russians out  
of Galicia the Austro-German ar-  
mies, which for some weeks have  
been on the Galician side of the  
Carpathian mountains, have during  
the last few days made repeated at-  
tempts to break through the Rus-  
sian trenches but without success.  
No estimates have been published  
of the losses sustained by the Ger-  
manic armies in their efforts to  
break through the Russian lines at  
these places, but they are believed  
to have been very large as the Rus-  
sian positions were almost impreg-  
nable. Regarding the Austrians at-  
tempt to outflank the Russians in  
eastern Galicia two Russian official  
reports in succession have reported  
that the Austrians suffered a severe  
reverse and that yesterday they lost  
in prisoners alone more than 6,000  
men. The Russians captured also a  
number of guns and a large quantity  
of transport material. On the other  
hand the Germans have either assumed  
the defensive or are retreating, except  
at Ossowetz where they continue to  
bombard the fortress.

Silence Two Forts.  
Berlin reports unofficially that at  
this point the Germans have suc-  
ceeded in silencing two of the forts.  
Their attempt to approach the city  
however, has been repulsed by the  
Russians.

The Germans, while claiming suc-  
cess near Augustowa where they  
captured 1,500 prisoners from  
among the Russian forces who tried  
to cross the Bobr river, admit that  
they have withdrawn their advance  
guards south of Mysyniec and that  
the Russians have been feeling their  
way forward to the northwest of  
Przasnysz.

The fact seems to be that the  
Russians are advancing along the  
whole northern line, but very slowly  
because of the mud which impedes  
the movement of guns and transport  
wagons. They have been able to  
reinforce their armies at every  
threatened point and are now con-  
sidered to be in as good a position  
as the Germans who have left their  
railways behind them.

French Offensive Continues.  
So far as the west is concerned  
the French offensive in the Cham-  
pagne region continues to be the  
outstanding feature of the cam-  
paign. The French troops have now  
reached the highest points on the  
ground north of Perthes and  
Beausejour and must be drawing  
near positions from which they will  
be able to shell the branch railway  
that runs to the rear of the German  
line and maintains communication  
between the German forces before  
Reims and Verdun.

There has been fighting at other  
points but none to compare in im-  
portance with that in Champagne.  
With the allied fleet again bom-  
barding the Dardanelles and the  
Russians pushing their offensive in  
the Caucasus the near east is again  
coming into the limelight. The Rus-  
sians have scored a distinct success  
by the capture of the Turkish port  
of Khopa, on the Black Sea, from  
which the Turkish army in the Cau-  
casus drew part of its supplies.

Throw Shells Overland.  
Unofficial reports say that besides  
the ships which entered the Dar-  
danelles and are bombarding the  
interior forts some of the fleet are  
throwing shells overland into the  
gulf of Saros so that the Turkish  
garrisons will be subjected to fire  
from two sides. The Turks are  
concentrating strong forces for the  
defense of Constantinople and the  
Balkan states are watching the op-  
erations with intense interest. The  
success or failure of the allies' at-  
tempt to open the straits means  
much to the Balkan states.

The king of Greece has called a  
grand council, including the pre-  
mier, former premiers and other  
statesmen, for a full discussion of  
the situation. The chamber later  
will hear the report of the council.  
Great Britain has not replied to the  
American note, addressed to both  
her and Germany, regarding the  
naval way zone and food shipments.

### WILSON TO KEEP "OPEN HOUSE"

Washington, arch 3.—President  
Wilson will keep "open house" to-  
morrow morning from 9:30 to 10:30  
o'clock at the white house to re-  
ceive members of the senate and  
house who wish to bid him farewell  
before leaving for their homes. To-  
night he was in almost constant  
communication with leaders of both  
houses concerning pending legisla-  
tion.

### VIRTUALLY DENY PLEA FOR INCREASE

Jefferson City, Mo., Mar. 3.—The  
house of the Missouri legislature  
virtually denied the railroad's plea  
for increased rates by adopting a  
substitute amendment to the pub-  
lic service bill fixing the maximum  
passenger rate at 2-1-2 cents a mile  
when the commission after complete  
investigation finds such an increase  
necessary.

## TOTAL DEPOSITS IN CHICAGO STATE BANKS SHOW INCREASE

State Auditor Brady Issues State-  
ment—Percent of Reserve to De-  
posits Also Increases.

Springfield, Ill., Mar. 3.—Total  
deposits of \$532,907,600.93, an in-  
crease of \$22,377,301.09, were held  
by the 91 state banks in Chicago on  
Feb. 28, according to a statement  
issued today by State Auditor Jas.  
J. Brady. The per cent of reserve  
to deposits is 27.24, also an in-  
crease over the figures shown in the  
last preceding statement, although  
the number of state banks in Chi-  
cago has not increased.

The total capital surplus, contin-  
gent fund and undivided profits on  
Feb. 28, amounted to \$102,566,-  
022.90, an increase of \$1,929,240.81  
since Nov. 25th, 1914.

Total cash and due from banks  
was \$145,191,422.21, an increase  
of \$21,882,365.52.

Loans on real estate showed a  
decrease of \$1,427,694.95 and a  
decrease of \$1,224,215.38 in loans  
on collateral security. There was  
an increase, however, of \$9,585,-  
639.09 in other loans and discounts.  
An increase of over \$4,000,000 is  
shown in cash on hand, consisting  
principally in exchanges for clear-  
ing house.

Total resources were \$643,122,-  
671.96.

## IMPEACHMENT PROCEEDINGS AGAINST JUDGE DAYTON DROPPED

Majority Report of Committee State  
There is Little Possibility of  
Maintaining Charges to a Con-  
clusion of Guilt.

Washington, Mar. 3.—Impeach-  
ment proceedings against Alston G.  
Dayton, federal judge in the north-  
ern district of West Virginia, were  
dropped by the house judiciary  
committee today by a vote of 11 to 4.  
A majority report drafted by the  
sub-committee which investigated  
charges against Judge Dayton held  
that while his conduct in some in-  
stances had been "reprehensible" there  
was "little possibility of  
maintaining them to a conclusion of  
guilt."

The minority report drawn by  
Chairman McGillicuddy and recom-  
mending impeachment was rejected.  
The house authorized the investiga-  
tion early in February and a sub-  
committee went to West Virginia to  
conduct the inquiry which was con-  
cluded in Washington after Dayton  
had appeared in his own behalf.

## SEE THREATS OF FURTHER LEGAL COMPLICATIONS IN BASEBALL

Gilmore Charges Organized Ball  
With Inducing Fed Players to  
Break Contracts.

Chicago, Mar. 3.—Threats of fur-  
ther legal complications were seen  
in a statement tonight by James A.  
Gilmore, president of the Federal  
Baseball League.

"I am greatly surprised that or-  
ganized baseball should have in-  
duced our players to break their  
contracts while our suit is pending  
in the United States court," he said.  
"The players referred to who have  
been induced to break their con-  
tracts since the hearing are Austin  
and Perritt. Caldwell and Wing  
were taken after the complaint was  
filed."

"We have not taken a player since  
the hearing or before who was un-  
der a contract with them. I am go-  
ing to Indianapolis tomorrow to con-  
sult our attorneys and see what, if  
any, steps can be taken. If the Fed-  
eral court decision is in our favor,  
we shall of course bring up these  
offenses in a supplemental com-  
plaint but it is doubtful if anything  
can be done in advance of the de-  
cision."

## PROTESTS TO CARRANZA AGAINST STATEMENTS MADE BY OREGON

WASHINGTON, Mar. 3.—The state  
department today protested to Gen-  
eral Carranza against alleged "in-  
cidental statements" made in Mexi-  
co City by General Oregon, regard-  
ing the food situation there. Al-  
though Oregon made public an-  
nouncement that he would with-  
draw his troops at the first signs of  
hunger riots, state department ad-  
vices today said he had declined aid  
from an international relief com-  
mission.

The situation in Mexico City is  
attributed to the closing of govern-  
ment offices, the suspension of in-  
dustry, the isolation of the capital  
from the outlying country, and the  
sending of food supplies to Vera  
Cruz.

## URNS POSTAL SURPLUS OVER TO TREASURY

Washington, Mar. 3.—The treas-  
ury department tonight received a  
check from Postmaster General  
Burleson for \$3,500,000 represent-  
ing the surplus in the revenue of  
his department for the fiscal year  
which ended June 30th, 1914. For  
the fiscal year 1913 the postal re-  
venue surplus was \$3,800,000 which  
also was turned over to the treas-  
ury.

## MAGEE IS INJURED.

Macon, Ga., Mar. 3.—Sherwood  
Magee of the Boston Nationals fell  
while at practice here today suffer-  
ing injuries that probably will keep  
him out of the game for several  
weeks. A tendon in his right arm  
was torn loose.

## WOULD MAKE JUDICIAL PRIMARY MANDATORY

### THREE BILLS ARE INTRODUCED IN ILLINOIS HOUSE

Authors Hope to Obtain Passage in  
Time to Choose Candidates for  
June Election—Fifty-nine Bills  
Are Introduced.

Springfield, Ill., March 3.—Three  
bills seeking to make mandatory  
the nomination of supreme and cir-  
cuit court judges at the primary  
elections were introduced in the  
lower house of the legislature to-  
day as a result of their recent de-  
cision by the supreme court, which  
held that judges elected at the June  
judicial elections did not come un-  
der the provisions of the primary  
law and could be nominated by party  
conventions.

As five supreme court judges and  
several of the circuit court judges  
in Cook county are to be elected this  
June, authors of the bills hope to  
obtain passage in time to compel the  
nomination of all candidates at this  
election by the primary election  
plan. The bills were introduced by  
Representatives Burns, Democrat of  
Chicago; McCormick, Progressive of  
Chicago; and Donahue, Democrat of  
Bloomington.

### Fifty-nine Bills Introduced.

Those by Burns and Donahue con-  
tained emergency clauses. In all  
fifty-nine bills were introduced in  
the house today, while the senate  
began debate on a bill appropriating  
\$1,500,000 for the reimbursement  
of stock raisers whose stock was  
ordered killed in the effort to erad-  
icate the foot and mouth disease.  
The Democratic senators' fight over  
organization reached the floor today  
when Senator Canaday attempted to  
have Lieut. Governor O'Hara autho-  
rized to name a rules committee of  
three to draft permanent senate  
rules. Three Democrats voted with  
the Republicans and defeated the plan.

### Present Two Boxing Bills.

Two bills to legalize boxing and  
place that sport under the super-  
vision of a state athletic commis-  
sion were introduced today by Repre-  
sentatives Epstein and Hilton. Another  
bill along the same line has been  
prepared by Representative Santry  
and will be introduced tomorrow.  
The Epstein bill would create a  
commission of three members to be  
appointed by the governor at a year-  
ly salary of \$3,600 each. The bill  
would limit bouts to ten rounds  
with no decision. Clubs putting on  
boxing exhibitions would have to  
deposit \$5,000 with the state treas-  
urer and would have to pay the  
state five per cent of the gross re-  
ceipts of each exhibition.

The Hilton boxing bill is patterned  
after the New York and Wisconsin  
boxing laws. It is the same as  
the Epstein bill, except that it pro-  
vides for the three commissioners at  
\$5,000 each. The Santry bill will  
make decisions optional with the  
commission. Members of which  
would receive \$2,500 per year each.  
Otherwise it is about the same as  
the other two bills.

### Would Limit Campaign Expenses.

Pre-election pledges would be pro-  
hibited and all campaign expenses  
would be limited under a corrupt  
practices bill introduced by Repre-  
sentative W. J. Graham of Alton.  
Campaign expenses of candidates  
would be limited as follows:  
Candidates for governor and jus-  
tice of the supreme court \$5,000;  
other state officers \$2,000; presi-  
dential electors \$100; county, city,  
village and township officials and  
judges not already mentioned one  
third of salary of office for which  
they are a candidate.

The bill provides punishment for  
violation of from one month in the  
county jail to three years in the peni-  
tentiary. A bill providing for the  
non-partisan election of municipal  
officials in cities adopting the plan  
by a referendum vote, was intro-  
duced by Representative McCormick.  
The bill would abolish party  
circles in such elections the two  
high candidates for each position to  
be nominated. The McCormick bill  
amending the primary election act  
would make that act inoperative in  
cities until endorsed at a referen-  
dum election. A bill to enable trav-  
eling men absent from their pre-  
dict on election day to vote at  
other places in the state was intro-  
duced by Representative Atwood.  
County clerks would have to give  
ten days notice of all applications  
for marriage licenses before such  
license could be issued under a bill  
introduced by Representative Holsa-  
der. Mothers whose husbands have  
deserted them for more than two  
years would be included in the pro-  
visions of the mothers' pension act  
under a bill introduced by Repre-  
sentative Bruce, former chief clerk  
of the juvenile court of Cook county.

### Control of Country Elevators and Rural Telephone Lines Would Be Taken Away from the State Public Utilities Commission by a Bill Introduced by Representative Donahue.

Representative Dudgeon of Chicago  
introduced a measure which would  
authorize convicts to manufacture  
school books for free distribution in  
this state and to manufacture blind-  
er twine which would be sold to  
Illinois farmers at cost.

### Would Increase Schools' Income.

The annual income for the main-  
tenance of the public schools of the  
state would be increased from \$3,-  
000,000 to approximately \$4,500,-  
000 under a bill by Representative  
Kane of Harrisburg.

## War News Summarized

The bombardment of the Dar-  
danelles by the French and Brit-  
ish warships, which was sus-  
pended temporarily by storms,  
seems to be again in full swing.  
From various sources have come  
reports of the progress of the  
bombardment and the British ad-  
miralty has issued a brief sum-  
mary showing that 34 Turkish  
guns have been demolished at the  
entrance of the strait.

This report also describes  
briefly the operations of the fleet  
on Monday and Tuesday and  
says that mine sweepers have  
completed their work to within  
a short distance of Cape Kepsie,  
which lies about 10 or 15 miles  
up the strait.

A Russian cruiser had joined  
the fleet and four French bat-  
tleships were shelling the Turk-  
ish positions of Balair, near the  
entrance to the Sea of Marmora  
across the Gallipoli peninsula.

A Constantinople despatch says  
that more than forty big battle-  
ships, a great number of small  
cruisers, torpedo boats and des-  
troyers are lying off the Dardanel-  
les or engaged in the opera-  
tions and that the forts are com-  
pletely outranged by the guns of  
the ships. A strong Turkish  
army has however, been concen-  
trated in the shore defenses com-  
posed of the best troops.

Russia officially continues to  
send out optimistic statements re-  
garding her progress in northern  
Poland and the Carpathians.

With respect to these opera-  
tions German headquarters is  
saying little, but the Austrian  
war office says just as many  
claims to success in the Carpath-  
ians as does the Russian. That  
the allies are making continued  
progress in the Champagne re-  
gion in France is asserted by the  
French war office, which, in a  
supplementary official statement  
declares that the French troops  
have gained indisputable ascend-  
ancy in the Argonne region and  
are now the aggressors all along  
the line.

While the order of the privy  
council putting the British declara-  
tion against German commerce  
into effect has not been issued it  
is announced that this step soon  
will be taken and that the order  
will explain in detail the proceed-  
ures which the admiralty will  
carry out.

## RESCUE PARTIES BRING FOUR ADDITIONAL BODIES TO SURFACE

Increases Total Known Dead in  
West Virginia Mine Disaster to  
Fourteen.

Hinton, W. Va., March 3.—Rescue  
parties continue their efforts to  
penetrate the working of the Lay-  
land Mine of the New River and  
Pocahontas Consolidated Coal com-  
pany where an explosion occurred  
yesterday, but according to a state-  
ment tonight only four additional  
bodies have been brought to the  
surface today. This increases the  
total known dead to fourteen.

Rescuers headed by State Mine  
Inspector Absalom and Holaday an-  
Company Inspector Muir made con-  
siderable progress today but it is  
said that the farther they advance  
the greater the destruction by the  
explosion is discovered.

No list of the men believed en-  
tomb has been issued by the com-  
pany, it being explained that record  
of men employed in mines usually  
considered safe are not kept.

The work of bratticing the main  
entry is progressing rapidly, but  
Earl Henry, chief of the West Vir-  
ginia mining department, said it  
would be several days before the  
mine was clear of afterdamp.

### BEGIN HEARINGS TODAY.

Chicago, March 3.—Forty-one  
western will begin in Chicago to-  
morrow their argument before the  
inter-state commerce commission on  
application for an increase in  
freight rates, which according to  
the railroads, would increase their  
annual revenue \$10,000,000. The  
hearings which probably will extend  
over a month will be before Com-  
missioner W. H. Daniels.

### BALTIC STEAMERS FOR LIVERPOOL

New York, March 3.—The White  
Star Line Baltic, carrying 18,000  
tons of war supplies, steamed from  
this port for Liverpool today. Her  
commander, Captain J. Branson,  
says that as far as he was concern-  
ed he would fly the British flag  
from America to Hell, notwithstanding  
German submarines.

In recent years the schools have  
been receiving a straight appropria-  
tion of \$3,000,000. The Kane bill  
provides for a two mill levy. A bill  
by Representative Kasserman would  
exempt cities with a population of  
3,000 or less from the provisions  
of the primary election law until  
after a referendum vote on the sub-  
ject at an election to be held on the  
third Tuesday in April.

A bill introduced by Frank J.  
Ryan of Chicago would raise the  
pay of judges and clerks of elec-  
tions.

Unnaturalized citizens would be  
prohibited from operating saloons  
under a bill by Representative Ros-  
tenkowski of Chicago. The bill  
would not affect foreigners now  
operating saloons.

## REACH AGREEMENT ON LAST OF SUPPLY BILLS

### CONGRESS STRENUOUSLY WORKS ITS WAY TOWARD ITS END TODAY

Postal Appropriation is Last of  
Supply Measures to Be Approved  
By Conferees—Eliminate Propo-  
sed Abolition of Assistant Post-  
masters.

Washington, Mar. 3.—The sixty-  
third congress tonight strenuously  
worked its way toward its end at  
noon tomorrow.

Weary and worn senators and  
representatives pressed on under  
the eyes of hundreds of spectators  
who crowded the galleries of both  
house and senate chambers and  
overflowed into the corridors. Both  
branches handled a flood of bills,  
resolutions and conference reports  
in a desperate effort to pass all  
necessary legislation before ad-  
journment. The sessions which be-  
gan early today promised to be  
practically continuous until the end.  
Important Measures Seen Doomed.  
Important measures at a late hour  
tonight which seemed doomed were  
the bill to enlarge the measure of  
self government for the Philippines  
and give promise of ultimate in-  
dependence and the water power  
and mineral land leasing measure,  
so vigorously urged by President  
Wilson at the beginning of congress.  
All but two of the big appropri-  
ation bills, which in all aggregate ap-  
proximately a billion dollars, had  
been disposed of, only the Indian  
and postoffice bills remaining in  
conference as midnight approaches.  
There were fears that the post-  
office bill, carrying about \$318,000-  
000, would fail because of differ-  
ences over railroad mail pay and  
promotion features of the measure.  
House leaders already had prepared  
a joint resolution to continue the  
existing appropriation for the past  
service in case the bill is doomed  
in the final hours of the session to-  
morrow.

Conferees on the Indian bill re-  
ported progress but threats of a  
filibuster were made by several  
senators should the conference re-  
port prove unsatisfactory.

### Pass Civil War Claims Bill.

The senate passed the omnibus  
civil war claims bill, carrying ap-  
proximately \$2,000,000 with an  
amendment by Senator Crawford  
which would make such claims here-  
after not subject to findings by the  
court of claims. This in effect would  
terminate the liability for claims  
arising out of the war.

The volunteer civil war officers  
retirement pay bill also was passed  
virtually without debate. In the  
flood of miscellaneous legislation  
that swept the house a resolution  
was passed without opposition put-  
ting the house on record as oppos-  
ing to any re-organization of the  
rural mail service "that will ren-  
der that service less effective or will  
tend in any way to reduce the num-  
ber of rural mail routes."

The resolution introduced by  
Representative Thomas of Kentucky  
was directed against a re-organiza-  
tion plan proposed by Postmaster  
General Burleson which was strick-  
en out of the postoffice appropria-  
tion bill by the house.

An agreement on the postoffice  
appropriation bill the last of the  
supply measures in conference was  
reached by the conferees late to-  
night. Provision for the space basis  
of payment for railway mail service  
was retained. The proposed aboli-  
tion of assistant postmasters was  
eliminated.

The Indian appropriation bill, ag-  
gregating \$9,000,000 was finally  
agreed on in conference about mid-  
night. A senate amendment for re-  
adjudication of the case of ten  
thousand claimants adversely pass-  
ed upon by Secretary Hitchcock at  
the interior department years ago,  
was stricken out.

## WILL ABANDON MANY FEATURES OF PANAMA CANAL OPENING

Congress Refuses to appropriate  
Money for the Purpose Asked For  
by Secretary Garrison.

Washington, Mar. 3.—Many fea-  
tures of the elaborate exercises plan-  
ned for the formal opening of the  
Panama canal in July will be aban-  
doned as the result of the action of  
congress in refusing to make the ap-  
propriation for the purpose asked  
for by Secretary Garrison of the war  
department.

The appropriation requested was  
to defray the expenses of a trip to  
the canal of President Wilson,  
members of congress, members of  
the diplomatic corps, representatives  
from foreign governments and other  
special guests, including former  
Presidents Roosevelt and Taft.  
It was intimated tonight that the  
president himself would not go to  
the formal opening, which is plan-  
ned for July, but it is possible that  
he may change his present plans.

### LAST HOPES VANISH.

Washington, March 3.—The last  
hopes of the friends of the Philip-  
pine self-government bill to take up  
the measure at this session of con-  
gress vanished tonight, objection  
being made to its consideration  
when its turn was reached on the  
unanimous consent calendar of the  
senate. Several senators objected  
to consideration of the bill and it  
was passed over.

## GRAND JURY FINDS INDICTMENTS AGAINST NEW YORK ANARCHISTS

Abarno and Carbone are Arraigned  
and Held in \$25,000 Bail Each  
for Pleading Friday.

New York, March 3.—The grand  
jury found indictments late today  
against Frank Abarno and Charles  
Carbone, the anarchists who were  
arrested yesterday accused of hav-  
ing plotted to explode two dynamite  
bombs in St. Patrick's cathedral  
yesterday morning while several  
hundred worshippers were at mass.  
The indictments charge violation of  
the penal law. Abarno and Car-  
bone were arraigned and held in  
\$25,000 bail each for pleading Fri-  
day. The maximum penalty for  
the crime charged is 25 years in  
prison.

Although Carbone took no actual  
part in the placing of the bombs in  
the cathedral it was charged that  
he did most of the work in manu-  
facturing them, knowing the use to  
which they were to be put and that  
therefore he was equally culpable  
with Abarno. The latter is accused  
of having carried the bombs into  
the church and of having lighted  
the fuse of one of them.

When the men were arraigned  
Carbone said through an inter-  
preter that he knew nothing of the  
bomb plot, did not make the bombs  
and was entirely innocent. Last  
night the police announced that  
both Carbone and Abarno had con-  
fessed to plotting to explode the  
bombs in the cathedral, this being  
the initial move in the inauguration  
in this city of a series of outrages  
in which Andrew Carnegie, John D.  
Rockefeller and his son and other  
wealthy men were to be killed and  
banks were to be looted.

### State They Were "Framed Up"

For the first time since their ar-  
rest Abarno and Carbone tonight  
talked unrestricted by police cen-  
sors, making a statement from their  
cells in the Tombs. Abarno, who  
speaks English, acted as interpreter  
for Carbone. He declared that the  
main point they both wished to  
make plain was that they were  
"framed up" by their supposed  
comrade, Detective Polignani, who  
was known to them as Frank Baldo.  
The latter, they asserted, was the  
brains of the conspiracy.

"We would never have ventured  
into the scheme if it were not for  
the urging of Baldo," said Abarno.  
"It was he who met Carbone last  
December in the basement of the  
Bresci headquarters in East 106th  
street."

"Yes," interrupted Carbone, "he  
met me and took walks with me  
and explained that it was time that  
the hated capitalists were blown off  
the earth."

### Not Members of Bresci Group.

Both men declared that they were  
not members of the Bresci group of  
anarchists. Abarno declared that  
Baldo was the first of the three to  
buy any of the bomb making in-  
gredients. Carbone had bought  
some other material later, but Bal-  
do procured the last important  
chemical only a few days ago. Abarno  
said.

"Carbone did the work aided by  
Baldo," he said.

"Baldo kept urging me on," Car-  
bone interrupted.

Both prisoners charged that Bal-  
do selected St. Patrick's cathedral  
and showed them where to place the  
bombs.

## TWO MEN ARE TAKEN FROM OFFICERS AND SHOT TO DEATH

Pearl Fishers Arrested on Charge  
of Stealing Hogs Are Killed By  
Arkansas Mob.

Clarendon, Ark., Mar. 3.—Jeff  
Mansel and H. M. Candy, two white  
men, White river pearl fishers, were  
taken from officers and shot to death  
yesterday according to a report  
confirmed here by Sheriff Milwee.  
The affair occurred in a wild and  
remote section and the news did not  
reach here until today.

According to the report officers  
who had arrested Mansel and Candy  
were taking them in a boat to a  
justice. While paddling up a bayou  
a command to stop came from a  
clump of bushes from which muzz-  
les of shotguns and rifles appear-  
ed. The officers obeying commands,  
landed and departed, leaving the  
prisoners. Later they heard shots  
and returned to find their prisoners  
dead. The officers saw none of the  
attacking party. Sheriff Milwee said  
feeling in the section where the  
crime occurred is so strong that it  
is impossible to secure information  
as to identities of those in the mob.

### WOMEN SHOW ACTIVE INTEREST

A recent edition of Judge in a cartoon likened the politician who does not give heed to the woman's suffrage movement to an ostrich, who, with head buried in the sand, has a feeling of safety because he cannot see pursuers. It is said that a number of candidates now seeking preferment in the coming primary election were somewhat in the attitude of the ostrich when the campaign commenced, but more recently have taken a very different view of the matter and their heads are no longer in the sand.

The ostrich view-point is certainly not an advisable one for Jacksonville candidates, and this real fact has been forcibly brought home to all of the thirty candidates as they have proceeded with their campaigns and have dwelt upon the fact that there are nearly 4,500 registered women voters, more than half of the total number.

For a time it seemed, that there was a certain feeling of apathy among the women and that no very large per cent of them would vote, but more recently the women generally have given evidence that they believe the granting of the right to vote was not so important "as what they will do with the ballot" now that they have the privilege under the law to vote. There are indications too, that the women's vote cannot be "delivered" and that the women have as varying judgment of the capabilities and fitness of candidates as do the men.

It was the popular belief some months ago that the great body of women voters would not care to express their preferences at the polls except upon some moral or public question, but interest in the campaign has increased and the indications are that unless weather conditions are very unfavorable next Tuesday a large women's vote will be polled. The women are interested in the personality of the candidates and also seem to feel that this very personality of candidates has an underlying moral principle; that is, they see that the general tone of the city government, the general character of its activity and "the vision of the future" depend altogether upon the "kind" of men chosen, hence this new and awakened interest.

### BRAND WHITLOCK'S BIRTHDAY

The country at large is now generally interested in Brand Whitlock, the U. S. ambassador to Belgium who today will celebrate his 46th birthday. He has done much in that stricken country for the alleviation of suffering. From a newspaper reporter he became a successful author. He studied municipal government and was repeatedly elected mayor of Toledo from 1905 to 1913, when he declined another nomination to accept President Wilson's offer of a portfolio. Mr. Whitlock was born at Urbana, O., March 4, 1869, the son of a minister. He was educated in public and private schools, and at 13 became a reporter in Toledo. He studied law and was admitted to the bar in Ohio, practicing in Toledo since 1897. Besides his many books, Mr. Whitlock wrote extensively for magazines. When the European war broke out, he was in Brussels, in the center of the field of operations. He has used his office to the utmost in alleviating the pitiful condition of the Belgians and in saving what he could of the public buildings and famous art relics of the old cities. He even went

so far as to prepare maps for the attacking Germans, showing the buildings and places to be avoided by gun-fire, and the German commanders co-operated with him. In the distribution of the relief supplies from America he aided the special commission. Upon him fell much of the hardest work of the American diplomats in the war zone, and much praise has been bestowed on him by both war factions.

### HARD QUESTION FOR COURT

One of the hardest nuts to crack that have ever been put up to a United States district court is that of the libelled liner Kronprinzessin Cecille, the big German ship which is interned in Boston harbor. The court has refused to order the sale of the liner, until the foreign entanglements can be unravelled. The libels total nearly two millions of dollars, and are brought as a result of the turning back of the big steamer at the opening of the European war, as the vessel was nearing the British coast. The Cecille made port at Bar Harbor, Me., carrying back to America the millions in gold that had been shipped to England. For her failure to deliver the gold the Guaranty Trust Co. of New York seeks over a million dollars. One of the other claimants was a passenger, Maurice Hanssens of Brussels, Belgium, who, because he was not landed in England, blames the Cecille for the loss of his possessions in Belgium to the invading Germans. The lawyers for the steamship line will take affidavits in Europe as to the conditions that maintained when the vessel turned back, and the trial of the libels will probably come up in April.

### CITY PENSIONS FOR WIDOWS

The state law providing pensions for widows through county taxation is paralleled by laws in a number of cities. The question of pensioning is now being agitated in New York and comptroller Pendergast has compiled figures showing the number of pensions granted during a period of a year to each 10,000 mothers and widows. The figures are given from 11 large cities where such laws are in effect. These cities are as follows: Chicago, 16; Philadelphia, 7; St. Louis, 1; San Francisco, 22; Milwaukee, 54; Cincinnati, 75; Minneapolis, 19; Kansas City, 16; Seattle, 33; St. Paul, 32; Denver, 10.

The Illinois law providing mothers' pensions through county taxation has been on the statute books only a few years and the taxes resulting have not proved burdensome to the people. In Morgan county, for example the levy originally made for one year based on a small per cent was sufficient for two years. Very properly the law includes a great many conditions to make it certain that only those who are in actual need of the assistance can secure it. The laws on the subject in cities are not so strictly drawn and as a result the number of persons aided figured on a per capita basis is larger than in the counties.

### PLAN FOR LONG WAR

That the farmers of Canada believe the English statesman who when asked when the war will close replied that it would begin next May, is shown by the fact that they plan to plant 60,000 acres of wheat for the patriotic fund.

Already 40,000 farmers have signified that they will set aside at least one acre for the fund, and many thousands more will join in the gift of the Canadian farmers.

A huge order for flour is being milled at Winnipeg for export to South Africa and the West Indies. The stored wheat is about half its usual amount at this time of the year.

There is a big demand for corn in the northwest section, and large quantities are going across the border from the United States, free of duty.

### CHILD LABOR BILL BEFORE UNITED STATES SENATE

There is still a chance that the Palmer-Owen federal child labor bill may be passed by the senate before adjournment, according to the national child labor committee. The senate committee on interstate commerce reported it favorably the end of last week, and the national child labor committee believes that only a small minority of senators are actively opposed to the measure. The only difficulty will be in having the bill brought to a vote.

### BRITISH CRUISER DAMAGED

Amsterdam, March 3.—(Via London, March 4.—(1:50 a. m.)—The Berlin Tageblatt's Constantinople correspondent says the British cruiser Zephyr was badly damaged in the Dardanelles bombardment and was taken to Saloniki with 150 men wounded.

The Turkish newspapers according to the Tageblatt say that the Dardanelles will be the grave of Turkey's enemies.

### READS LETTER FROM CARNEGIE

Washington, March 3.—Senator Tillman tonight read to the senate a letter he had received from Andrew Carnegie saying that for the United States "to build a great navy or increase the army, would, in my opinion be folly only equalled by one who declined to walk out side with a lightning rod down his back because once there was a man struck by lightning."

### REPORTS EVACUATION OF TOWN OF DARDANELLES

London, March 4.—(12:50 a. m.)—A despatch to the Havas Agency from Athens says that a mist prevented the ascertainment of the extent of the damage done by the warships in their bombardment of the inner forts of the Dardanelles yesterday. A destroyer which passed before the town of Dardanelles, according to the correspondent, reported that it had been evacuated.

## ORDER-IN-COUNCIL WILL GIVE DETAILS OF NEW ENGLISH MOVE

## FORMALDEHYDE

### The Farmer's Friend

It has many uses upon the farm and in the home. The value of Formaldehyde in treating grain smut is recognized by scientists.

The farmer cannot be too careful in selection of his seed; that which appears to be free from smut may be strongly contaminated. The farmer ought to be sure that his seed is free from disease germs before planting, and under the circumstances the only way to keep on the safe side is to treat all seed. Recent improved methods of manufacture have cheapened the price of formaldehyde so that it is now inexpensive.

Come in, talk with our druggist regarding the formaldehyde treatment of grain smut. Let him show you how cheaply and easily you can get better results. Formaldehyde has many uses and is rapidly replacing more poisonous and dangerous germicides.

## HORSE FEEDERS

WOOD'S IMPROVED GRAIN SOFTENER Pat. Jan. 8th, 1915.

We find after several tests on feeding horses, softened grain with all its strength retained in it, is the best feed for a horse that can be fed. It keeps them in a healthier condition, and they will drive better, do more work, look better, beside we save one-third the feed. I will furnish one plant in each town, one on 30 days free trial to prove my claims, and I will furnish one of my plants in each county, on 30 days free trial to prove it is the best cattle feed, and the slop of the mush fed cattle the best hog feed. A little soda is good for all classes of stock; helps them digest their feed. I ask all cattle feeders and horse feeders to try one.

2 gallons of corn with the cob in it cooked will make all any steer can eat, and gain 3-4 to 4 pounds per day, if clover is fed with it in dry lots.

1 gallon with the cob in it makes a day's feed for a horse. 1 gallon corn with ground clover in it feeds a hog a day.

### INTEREST IS GROWING IN GRACE CHURCH REVIVAL

"Sowing to the Wind, Reaping the Whirlwind," Subject of Strong Sermon by Rev. P. R. Powers.

Rev. P. R. Powers preached a great sermon last night at the Grace church revival meeting on the subject of Sowing and Reaping. This feeling of interest was deepened beyond any point yet attained in the meetings. Facts from the history of individuals and nations from sacred and secular history were arrayed in a striking and convincing way to support this great truth of Scripture. Rev. Mr. Powers spoke with great earnestness and force and his words carried weight of conviction to his hearers.

He said in part: "This text is the statement of one of the laws of human life. In every department of life we see this law at work among men. We may as well expect to violate any other of God's laws and expect to escape the effects as to sow to the wind and not reap the whirlwind. God's mercy and goodness may pardon and save the soul from sin but yet not change the operation of this law of moral sequence. Ofttimes through carelessness and indifference people sow to the wind only later in life to reap in sorrow and anguish the terrors of the whirlwind. People should teach and impress this truth upon young persons. During the revival times many insist that the work should be done among adults. This is right yet there is no more important work than that which is done among the children who are thus saved from the effects that surely follow the violations of such great laws as the one stated in the text, sowing to the wind and reaping the whirlwind. This lesson needs to be impressed upon the home life. Many are carelessly drifting on in indifference whom the terrible blast of the whirlwind will sweep away in after years.

Several manifested an interest in leading a better life. Today many of the workers will gather at the church for a short prayer meeting and then go out to call upon their friends in their homes and places of business. Friday night will be Sunday school night. The teachers, their scholars and their parents are invited and urged to attend the service that night. Some fine musical numbers will be planned for the Friday night service. Mrs. C. A. R. Stone sang a fine number last night entitled "Somebody Knows."

Harlan Williamson's class held a luncheon and meeting at the church last night to plan to increase their class and to interest young men in the revival meeting. There were about 15 present.

A full day is being planned for Sunday, three great services.

## Bothered By Colds or Croup? Present Coupon to Druggist

Good for One 25c. Package Free of the New "External" Vapor Treatment, That Relieves Colds Over Night—Croup in Fifteen Minutes.

Applied Over Throat and Chest, It Is Inhaled as a Vapor and Absorbed Through the Skin.

Arrangements have been made for druggists to give away free a limited number of 25-cent packages of the new "external" treatment for all cold troubles, recently introduced here from North Carolina. A number of druggists have already received their shipments and are giving away free packages to their customers. If your druggist has not yet received his supply, present this coupon at once and ask him to reserve you your free package. As the free supply with each druggist is limited it is advisable to present your coupon early.

This new treatment, Vick's "Vap-O-Rub" Salve, relieves croup and cold troubles by external application. There is no need to dose the stomach with injurious medicines. Its use is especially recommended to mothers with very small children, as Vick's can be used as often and as freely as wished without disturbing the delicate stomach of the little chaps.

Apply Vick's over the throat and chest in severe cases covering with a warm flannel cloth. The heat of the body releases soothing, antiseptic vapors that are inhaled with every breath at the same time Vick's is absorbed through the skin, taking out the tightness and soreness.

For all bronchial and catarrhal troubles, sore throat, hoarseness and difficult breathing, this new treatment will be found wonderfully effective. It is a positive preventive of pneumonia in its early stages, and in advanced cases the medicated vapors inhaled loosen the phlegm and ease the difficult breathing.

The local druggists are selling this new treatment in 25c, 50c, and \$1.00 jars on 30 days' trial. With each purchase there is given a refund blank good for your money back if you are not delighted with the results.

Mothers especially should not delay in getting their free packages. Remember, this coupon is good only if presented in person to your regular druggist. No coupons presented by children will be honored.

Among the druggists who are giving away free packages are the following: The City Drug Store, and Coover and Shreve's.—Advertisement.

**OKLAHOMA SCHOOL FOR DEAF-GROWING**

The Deaf Oklahoman published at Sulphur, Okla., in a recent issue tells of the growth of the school for the deaf there and some of the needs.

Many Jacksonville people are interested in this school from the fact that Mr. Frank Read formerly of this city, is the superintendent. Miss Margaret Russell also of Jacksonville, is one of the teachers. Speaking of conditions and needs the paper says:

"The enrollment to date is 230. By crowding our two cottages we have managed to provide sleeping room for this number, although each cottage was designed to house from 60 to 75 children. We have on file now 75 applications and requests for application blanks for nearly fifty more. We hope we shall not be compelled next fall to turn away these young deaf children who are to be found in every part of this state. We trust that the legislature will make ample provision for the care and education of every deaf child that applies for admission.

**Our Needs.**

"On account of the prospects for a largely increased attendance next year the school needs immediately a dining hall and kitchen, a girl's dormitory cottage, boy's dormitory cottage, additional teachers and officers, and a fund to build walks, plant trees, grass, grade and beautify the grounds."

**What NOT to Do**

Don't buy a car unless you are satisfied that the manufacturer are sound, because upon their remaining permanently in business depends two very important considerations, viz: the ability to obtain duplicate parts of your car should you need them, and the market value of the car in case you wish to sell or trade it.

Don't buy a car unless you know something about the dealer. Be sure that he stands well with present owners, for upon his willingness, as well as his facilities to look after the mechanical welfare, of your car and guide you through your first year of experience, depends the measure of your satisfaction.

Don't buy a car that is in any sense an experiment. It may be all right for the fellow who is something of an automobile mechanic to stake his money and peace of mind against that which is new and unproved; but your course is to buy a car whose mechanical features have been found safe and correct in actual service and understood by garage men wherever you are likely to drive.

Don't buy a complicated car. Look for the Simple chassis, with parts accessible and easily operated.

Don't be "carried away" by features of beauty and comfort alone. Remember, that while good looks and easy riding are important, that the "real car," the car that is going to either delight or exasperate you, is the car beneath the hood and floor.

## OLD JACKSONVILLE

Mr. Williams---Dr. Jones

By Ensley Moore.

Member of Illinois State Historical Society.

He was always called Mr. Williams, perhaps because he was a minister; perhaps, also, on that account he was Mr. instead of Professor, when he became principal of Jacksonville Female Academy.

The minutes of the Presbytery of Illinois—new school—show that it met with Pisgah church, March 4, 1842, and adjourned to meet next day in Jacksonville. It is also stated that Wm. H. Williams was received from the Presbytery of Tuscaloosa, (Ala.), and was installed pastor of the First Presbyterian church of Jacksonville, March 8, 1842.

Dr. Norton's History of Presbyterianism in Illinois says: "Wm. Henry Williams was born in New York, graduated from Dickinson college, Pa., 1823; studied theology at Princeton, N. J.; was a missionary in Georgia while a licentiate; ordained over the Third church in Albany, N. Y., Dec. 9, 1828; supply pastor and pastor in Tuscaloosa, Ala., 1831-36; teacher 1833-41; pastor First Presbyterian church, Jacksonville, 1842; teacher 1843 (J. F. A.); principal Keokuk (Iowa) seminary, 1849-56; home missionary, Iowa, 1863; supply pastor at Perry, Ill., 1866-69. Died at Hendersonville, N. C., Dec. 21, 1876, aged seventy three. He was a member at the time of his death of Schuyler Presbytery, Ill." The minutes of the Presbytery of Illinois show that it met at Carrollton, March 31, 1842, and, among other things done, "The pastoral relation between the First church, Jacksonville, and Rev. W. H. Williams was dissolved," and Mr. Williams became principal of Jacksonville Female Academy. He was very ably assisted in this work by his wife, nee Abigail L. White, a native of Putney, Vt., where they were married June 22, 1832. Mrs. Williams was a woman of fine ability and decided character. They were parents of ten children: Geo. B., who died at the age of about twenty five years, leaving a wife and two children; Emily, who died about two years of age; Wm. White, who became a Presbyterian minister, and died comparatively young; Abby M., still living, and who taught here about twenty years ago; Charles Fitch; Frances S. and Helen S., twins; Helen died in young childhood, Frances became Mrs. Rush and lived to sixty-five years; Theodore S., died at twenty four, was in the U. S. navy; Louis H., and Frederick A. A., are still living. The twins and Theodore were born in the Academy here. Mrs. Henry Jones, (wife of the doctor) and Mr. Williams were cousins of some degree, through their mothers—probably Fitches.

Col. Phineas W. Crawford of the class of 1849, Illinois college, was a nephew of Mrs. Williams. Under Mr. Williams management the first class was graduated from the academy in 1845. Its members were, Kate Murdock, Mrs. Jas. P. Smith, and Julia A. Wolcott, Mrs. W. C. Unanuey Carter. The class of 1846 had four members, Louisa C. Jones, Mary Amanda McMackin, Sarah A. Marvin and Bella A. Wetherbee. The class of 1847 was much larger, with twelve members, and the good work went on until 1903, when the academy was—married, shall it be said?—united with Illinois college.

Mr. Williams went from here to Keokuk in 1848 or 9, as pastor, and he and his wife founded the seminary there, which they conducted for years and until he quit teaching. Mr. Williams had the great misfortune of becoming blind in the last years of his life. Dr. Glover, in his semi-centennial address regarding our First Presbyterian church said: "The fourth pastor was Rev. W. H. Williams, who was installed on the 8th of May (?), 1842. His ministry was useful, but of short duration, for in September of next year he resigned, in order to take charge of the Female academy, having received a pressing invitation to do so and held that position very usefully for several years."

Charles Fitch Williams, third son of Mr. and Mrs. W. H. Williams, spent the first seven years of his life in the Academy. He was born in Hadley, Will county, Ill., Nov. 5, 1841.

He studied at Williams college, Massachusetts under Mark Hopkins; taught two years at the New York House of Refuge, and at twenty three was offered the assistant superintendency of that institution. Declining this he came west in 1865, entering the Illinois conference that year and being pastor in Perry, Ill., about two years. Part of this time was spent in missionary work in Arkansas. He joined Kansas conference in 1871, being appointed pastor in Pleasanton, then in Winfield. He was married to Miss Mary Eleanor Libbey, one of the finest of the many fine women Perry, Ill.,

has sent forth, March 14, 1871, and they were the parents of one son, Charles Cousins Williams, now resident near Perry, with his mother. In November, 1873, they went to Ft. Madison, Iowa, where Mr. Williams soon accepted the chaplaincy of the state penitentiary at that place. He served for over nine years in this position. He joined the Iowa conference in 1878, and served Wapello, Mediapolis, First church Keokuk and Williamsburg. In 1891 Mr. Williams went to St. Louis, Mo., and organized the Children's Home Society of Missouri; was superintendent four years, and left a strong organization. Here he overworked and found that his health was undermined. The three following years were spent in Colorado, seeking health, but supplying the churches at Glenwood and Lamar. In the fall of 1894 he settled at Davenport, Iowa, and supplied Buffalo and Blue Grass circuits. He had just accepted a position as assistant superintendent of the A. C. Rankin State Marshall movement when stricken by his last illness. He was a sufferer for ten years of a trouble which proved fatal, but kept to his work almost to the last. The last few years he was a supernumerary of the Iowa conference.

It was written of him: "He was a man of broad culture, a thinker, preacher and friend to all that was good and praiseworthy. He was highminded, spiritual and evangelistic. He did his work conscientiously and with a high motive to please God. He was naturally a reformer and on the platform was a power for temperance. He leaves a wife and one son. The conference, church, and state of Iowa lose a champion for all that is good and true and best in citizenship."

During the residence of the C. F. Williams family in Iowa the women of that state put up their magnificent fight for prohibition, led by such grand workers as Mrs. Mary Jane Aldrich, Mrs. J. Ellen Foster and Florence Miller, and Mrs. Chas. F. Williams was one of their able co-adjutors.

The Rev. Charles Fitch Williams laid down to his needed and final rest at Davenport, Iowa, January 9, 1906.

Elizabeth Barrett Browning wrote of such as Charles F. Williams and his father and mother:

"His dew drops mutely on the hill,  
His cloud above it saileth still;  
Though on its slope men sow and reap,  
More softly than the dew is shed  
Or cloud is floated overhead  
He giveth his beloved sleep."

### DR. HENRY JONES.

In the early days there were few physicians who had collegiate or professional education. Jacksonville was fortunate in having one who had both.

Dr. Henry Jones was born in New York City, August 26, 1803. He was graduated at Williams College, Massachusetts, and afterward became a graduate of a prominent medical school, and began his practice in New York City. He was married June 12, 1826, to Miss Catherine Smith at her home at Hadley, Mass. This was between Northampton and Amherst.

In September, 1831, they moved west, coming directly to Jacksonville, and this was their home for most of their fifty-three years of life together. They were the parents of twelve children, namely: Erastus S., who became a practicing physician; Louisa C., Henry; Catherine; Emily, afterwards Mrs. French; Lucia; William W., a writer and editor; Mary; Julia D., a widow of Dr. Joseph Robbins of Quincy; Agnes, who married Mr. Van Doran; Frederick A.; and Joanna W., Mrs. Frank W. Haynor.

Dr. Jones was a devoted member of the Presbyterian church, being an elder in the First church from soon after his arrival here until 1860. Upon the organization of the Westminster church, of which he was an organizer, he was elected one of the first elders, serving in that office until his death.

He was one of the professors in the medical department of Illinois college, 1843 to 1848. At his funeral the Rev. S. M. Morton, D. D., pastor of Westminster church, took as his text the following words: "And the king said unto his servants, 'Know ye not that there is this day a prince and a great man fallen in Israel?'" Mr. Morton then said in part: "A great man has indeed fallen among us; great, not in noisy fame, but rather in the true sense of personal character. Intellectually strong, professionally able and devoted, religiously humble and devout, as well as consistent and useful, warmly attached to his friends, he rounded out a life of unusual length, full of abundant labors and conspicuous usefulness, and though passing away 'as a shock of corn cometh in his season,' yet he will be much missed and lamented. \* \* \* Sixty years of the eighty-one allotted him were spent in active professional work, fifty-eight years in happy married life, fifty years in the church, and forty-four years as ruling elder. These are the merest outlines of a life that extended nearly over the period of three ordinary generations."

Dr. Jones was a man of much taste and drew fluently with the pencil. Politically, he was one of the strongest of Republicans, and a personal acquaintance of President Lincoln. Dr. Jones had a wonderful capacity for drawing his patrons to him as friends and strong supporters. He was a trusted family physician of many of our oldest and best families. To them no one was equal to Dr. Jones. He was a very tall man, carrying himself very erectly and was always especially well dressed. This was the more

MAN OF GRIEF

I now am bent, and old and gray, and I have come a doleful way. A son of sorrow I have been, since first I reached this world of sin. Year after year, and then repeat, all kinds of troubles dogged my feet; they nagged me when I wished to sleep and made me walk the floor and weep. I had all troubles man can find—and most of them were in my mind. When I would number all the cares which gave me worry and gray hairs, I can't remember one so bad that it should bother any lad. And often, looking back, I say, "I wonder why I wasn't gay, when I had youth and strength and health, and all I lacked on earth was wealth. I wonder why I didn't yip with gladness ere I lost my grip. My whole life long I've wailed and whined of cares which lived but in my mind. The griefs that kept me going wrong were things that never came along. The cares that furrowed cheek and brow look much like hop-joint phantoms now. And now that it's too late, almost, I see that trouble is a ghost, a scare-crow on a crooked stick, to scare the gents whose hearts are sick."

## MILLIONS OF CHILDREN WILL AID WAR SUFFERERS

Plan Originating With Horace Kibbe Turner Will Give Aid to Children in Europe and Help Those Here Too.

Mrs. Mary Turner Carriel has just received from her nephew, Horace Kibbe Turner of New York, a leaflet describing a new movement he recently inaugurated for the benefit of the starving children in Europe. The movement is termed "Children of America's Fund" and a National Advisory Committee has been appointed including Charles W. Eliot, president-emeritus of Harvard University; David Starr Jordan, president of the National Educational Association; Richard C. MacLaurin, president of the University of Virginia; John H. Finley, president of the University of the state of New York; John G. Hibben, president of Princeton University; George E. Vincent, president of the University of Minnesota; and Benjamin I. Wheeler, president of University of California. The general plan is that 1. Children out of school hours shall earn small sums, make needed articles of clothing or toys, and useful articles, to be sold at fairs.

2. Children shall give from what they have. They can give money intended for moving picture shows, candy, and other things.  
3. Girls, one day a week, more or less, during school hours, shall make needed articles of clothing as part of their school work.  
4. Boys shall make in manual training, toys and useful things to be sold at fairs.  
5. Children shall hold fairs and entertainments in which they and local talent take part.  
6. Children shall sell tickets to these fairs and entertainments at from 5c to 50c, according to local means.  
7. Schools shall charge admission fee to commencement exercises.

It is set forth that 5c a day will keep one European child from starving and so 7 children giving 5c week, can keep one child alive for a whole week. It is proposed that children shall be organized in groups of seven and "We are Seven" groups will send remittances each week to the "Children of America's Fund." Mr. Turner in his letter to Mrs. Carriel says that he became interested in noting how his own children examined the illustrations of the terrible sufferings in the countries at war. He began to fear the hardening influence of these pictures upon the next generation. He believes that the plan he has outlined will not only help the suffering ones abroad but will aid the children at home. Many university presidents and others interested in educational work, in addition to the ones mentioned, have endorsed the plan.

The leaflet explaining the plan says in part:  
"Today the influences of lying, hatred, murder, are moulding the lives of America's twenty million children, tending to crush out truth, justice, and love from them. As a nation we are evading our responsibilities in the matter and not seriously attempting to counteract in our schools the evil influences arising from the war. In many of our schools we even forbid all discussion of the war. We cannot, however, hide this war from our children, nor keep its destructive influences from their lives. They fight the war out amongst themselves to and fro from school. They hear and read of pious appeals of starving men, women and children, but not realizing their opportunity to help, their pity is frozen, and most of the influences that they get from the stories, cartoons, and pictures which fill the land are baneful influences. And there we leave them, with their noblest ideals endangered, without guidance. We must face this terrible situation immediately, and guide our children through it, or run the risk of ruining their lives. This overpowering danger creates an opportunity equally great. Good, rather than evil, may come from the war as far as our children are concerned, if only we face the facts and act with promptness and wisdom. With a nation-wide relief movement of our children we can turn their minds from destructive murder to helpful life-giving, and build on the terrible need the strongest, most helpful race of men and women the world has even known. The twenty million children in the United States are organized today under superintendents, principals, and teachers, and can begin immediately on relief work."

"No such thing; it's to keep them apart."

## Meeting Them Face to Face

Ernest Prentice.

We introduce today Mr. Ernest Prentice, gas house foreman for the Jacksonville Railway & Light Company.

Here is a gentleman who takes a pile of coal and turns it into illuminating gas. He is responsible for the operation of producing your illuminating gas from the time the coal is dumped from the cars until it reaches the monstrous holders from where it is delivered to the mains.

Mr. Prentice is credited in Decatur with having made such good gas that the "Cook with Gas" became a family slogan and they say in Decatur that everybody is doing it now. As a result the vendors of coal burning stoves do not think much of him but the friendship lost from that source is more than made up by the good words of the housewives of the neighboring city.

Be that as it may, Mr. Prentice was induced to come to Jacksonville about a year ago and he promises to repeat the trick in this city. He is an expert gas man of many years experience and we believe that he is giving our Jacksonville patrons gas of excellent quality.

This in Introduction No. 7 in the "Meeting Them Face to Face" series. Look for the next one and become better acquainted with "YOUR" Utilities Company.

## BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids.

It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place. Most headaches, "biliousness" and that lousy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. At 15c and 25c per box. All druggists.

## THE AYERS NATIONAL BANK

### SAFE DEPOSIT BOXES

### \$3.00 PER YEAR

Less than One Cent a Day.

There are hundreds of people in this vicinity who have become accustomed to using a tin box in which to keep their valuables, who by using one of our SAFE DEPOSIT BOXES will find they are safer, strictly private and more satisfactory in every way. It requires two keys to unlock the box. The customer has one and the Bank the other, which is the master key. If you should lose your key, and some one else should find it, it would do them no good, because it would require the master key, which we hold before the box could be opened.

There is no better or stronger vault in the United States, and the rate we pay on burglary insurance, which we carry, is the lowest in the country.

Come in and let our vault clerk, Mr. Ewen I. Whitlock, explain.

## FINE WEATHER AND GOOD ROADS

### MEANS MOVING DAY FOR MANY

Automobile Traffic is Increasing and Many Farmers Are Making Residence Changes at This Time—Concord Has New Addition.

Moving day for the farmer is usually placed in early spring, but the fine March weather of the past week and the state of the roads, growing smoother every day, are creating conditions especially favorable for those making changes this year. Each morning sees a few more automobiles brought from winter quarters and passable roads are reported from all quarters of the county. March weather, however, is well known for fickleness, and motorists, movers, and others with interests of any kind throughout the county, are making the best of the situation. Building activity, though not extensive at this time, is reviving and weather conditions are especially favorable to operations now in progress. Among the more important announcements in real estate circles is the new addition to Concord, subjoined to the east part of the village by W. T. Filson.

George Forwood of Shipman, Ill., is among Jacksonville's new citizens. Mr. Forwood disposed of his dairy herd in Macoupin county a few days since and is removing to the property on North Main street formerly occupied by M. Jensen. James Pike has just completed a cottage on Jones street, South Jacksonville, and is coming there to live from the Pisgah neighborhood. Claud Self has just removed from the Vandallia road and now resides on the Baxter farm, east of Morgan lake. Wilbur Keenan of Alexander precinct made a change recently, removing to the village from a farm north of Alexander.

J. P. Doan residing in the Routh property on South Main street has changed his residence to Mr. Routh's place on Lincoln avenue. The site and the big barn are being moved to enable Mr. Doan to accommodate his dairy herd. John Ross, who has been on the Lincoln avenue place, is now east of Jacksonville on the state road and W. W. Crabtree removed in turn from this farm, known as the Blub place, to the city of Jacksonville. Among other removals may be mentioned farmers from Murrayville and Woodson who have chosen this time to go to North Dakota and whose departure has been recorded from time to time.

Thirty-four lots are included in Mr. Filson's addition to Concord. The plot is intersected by a forty-foot street running north and south and has at each end a twenty-foot alley. The addition is bounded on the north by Morgan street and skirting the lots on the south is Pleasant street. This addition marks a considerable increase in the area of the village and is the first made since Concord was incorporated.

The ladies had prepared a splendid lunch and a most enjoyable afternoon was spent. Many good wishes were extended Mrs. Jaeger and Mr. Osborne by the departing guests.

## SHOWS TREMENDOUS INCREASES IN EXPORTS TO MANY NATIONS

Shipments to Principal Countries of Latin-America Decrease—Those to Germany Show Increase.

Washington, March 3.—Analysis of the foreign trade for January issued today by the department of commerce showed in detail the amount of tremendous increases in exports to many European nations and the decreases in shipments to the principal countries of Latin-America as compared with January 1914. No American products reached Austria during the month the report shows but shipments to Germany showed increases as compared with the first months of the war. The total trade balance in favor of the United States for the month was \$145,506,996, most of which was created by products of American graineries and farms.

The value of American horses bought for the armies in Europe during January was \$7,865,795 and mules exported were worth \$1,312,195.

## REVIVAL SPIRIT CONTINUES AT FIRST BAPTIST CHURCH

Large Number Attends Song and Praise Service Held Wednesday Evening—Meetings Planned at the Mission.

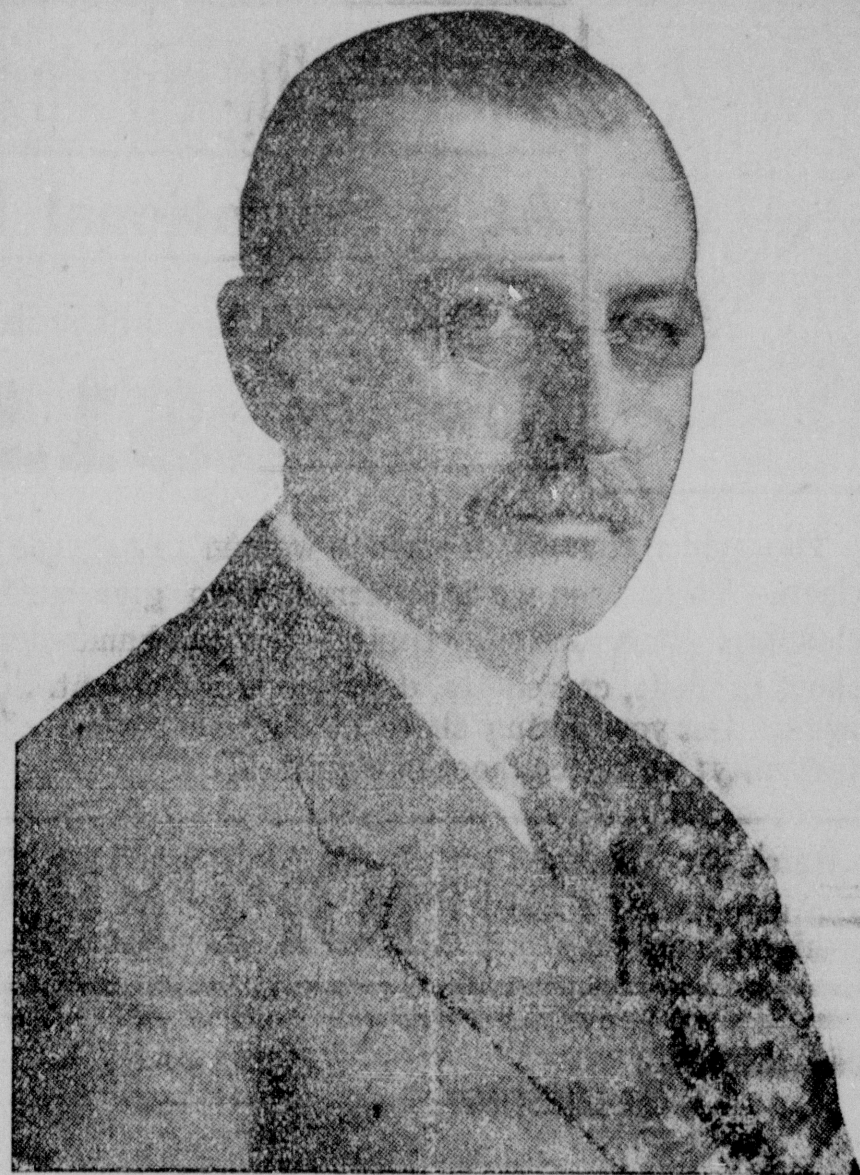

There was a large audience present at the prayer and praise service of the First Baptist church last night, including many of the new converts from the recent revival. Pastor Stephens gave a statement of the requirements of the Christian life, explaining part three of the Red Book "Salvation and Desired." This is subdivided into three heads, Godward, Selfward, and Manward, the first representing communion, the second sanctification and the third, service.

Many of the songs which were used during the revival were sung last night and a number of the converts took part in the services. A fine spirit prevailed and was one of the meetings of a similar kind that will characterize a continuation of the revival work. At the close of the service last night the ladies of the church served coffee and sandwiches.

The church members decided to hold gospel meetings each Tuesday evening at 7:30 at the mission, corner of Ashland avenue and Farrell street. Pastor Stephens will have charge of these services. A number from the mission were converted during the revival.

### CANNOT SHOOT WILD DUCKS THIS SPRING

Information Derived from the Illinois State Game and Fish Commissioners.

Bloomington, March 4.—P. J. Flanagan, the McLean county district game warden has been receiving many inquiries as to the legality of shooting ducks this spring. The state law permits duck shooting in the spring, but the federal statute forbids it. In cases of this kind, the provisions of their federal laws must be obeyed.

Under the laws of Illinois, ducks, geese and other wild water-fowl may be killed from September 2 to, and including April 14 of the next succeeding year. Under the federal law it is lawful to kill the aforesaid water-fowl from Sept. 1 to, and including Dec. 16, of the same year. It is therefore seen that from Dec. 16 to April 14 the state and national laws conflict. Report has been current in some parts of Illinois that the national law has been declared unconstitutional. In order to get correct information on the subject, C. J. Dittmar, president of the state game and fish commission wrote to secretary Houston, of the department of agriculture and received a reply which is in part, as follows:

**Secretary's Letter.**  
"The report to which you refer probably has gained circulation as a result of the recent decision of Judge Triebner in the eastern district of Arkansas, in the case of United States vs. Henry C. Shauver (214 Fed. 154), in which he holds that the law is unconstitutional. This case is now pending in the supreme court of the United States on writ of error prosecuted by the government. It is not possible at this time to state when a decision may be expected.

"In the case which was prosecuted in the federal court in South Dakota, the defendant (Alfred M. Shaw) attacked the constitutionality of the act, but Judge Elliott stated that he has familiarized himself sufficiently with the matter and in an oral opinion held the act constitutional.

"Twenty-two prosecutions have been instituted in the last ten months for violations of the regulations for the protection of migratory birds. In sixteen of these, convictions resulted and fines were paid or sentences suspended. The regulations are in full force throughout the United States. Prosecutions have been requested in every case based upon sufficient information furnished the department, and it has always been intended that every offense under the law should be prosecuted."

Complying with a general demand from the theatregoing public all over the United States and Canada, Oliver Morosco has sent out eight companies in J. Hartley Manners' wonderfully successful comedy "Peg O' My Heart" which ran for 604 performances in New York City. This great play has been so popular in all countries, that it is now known as the international comedy triumph, and the character of "Peg", already so well known throughout the civilized world, will live forever as a classic.

In selecting the company that will interpret this fascinating offering at the Grand theatre Friday night, Mr. Morosco has paid Jacksonville a compliment, for Elsa Ryan, known in all large cities as the premier Peg of all "Pegs" will portray the title role and on this auspicious occasion she will be supported by a cast of unusual excellence including, as it does, several members of the original New York Company.

#### NATIONAL RED MEN MEET

An announcement just made from New York City will be of interest to Red Men in this vicinity. ## WILLIAM BURKERY WAS FOUND GUILTY

JACKSONVILLE MAN GIVEN TEN YEARS FOR MURDER.

Jury Holds Prisoner Guilty for the Death of Robert Grabhorn Which Took Place in Kansas City Last June.

(Special to Journal)  
Kansas City, Mo., March 3.—William Burkery was sentenced today to ten years for the murder of Robert Grabhorn last June.

The following despatch was received last night relative to a former Morgan county young man. The Burkery family is well known in this community and well thought of. No details of the trial have reached the city.

The story at the time of the shooting was as follows: "William Burkery, a bar tender 32 years old, is in the county jail awaiting trial, for the killing of Robert Grabhorn early on the morning of June 12, 1914. Burkery found Grabhorn visiting at the rooming house of the former and shot him and the latter ran from the house and died in the street.

The shooting followed a wine party in which Mrs. Rose Smith, the keeper of the rooming house, Mrs. Elizabeth Megredy, a friend of Mrs. Smith and two men, Grabhorn and Roscoe Mills, had taken part.

The party took place in Smith's home. Burkery found them about a table in the dining room there, when he returned from work about 1 o'clock in the morning. He went to his room and procured a revolver. Going into the dining room he displayed the revolver and objected to the party. He addressed his remarks to Grabhorn and Mrs. Smith. He said Grabhorn had accused him of "prowling around" whereupon the latter arose and started at the door and Burkery fired a bullet through his body.

Burkery had roomed at Mrs. Smith's house for three years. The woman works in a downtown department store and supports two children. She thinks that jealousy caused the crime. Grabhorn was 32 years old and married and both of the women at the wine party are divorcees. Mills, the fourth member is a married man.

### AT THE GRAND.

A very excellent musical play was the verdict of the audience which witnessed "High Jinks" at the Grand last night. The name has a "burlesque" sound which really does not give an index to the merit and sprightliness of the production. The company includes a number of players of more than usual ability and the music is especially catchy and melodious. A well trained chorus adds to the good work of the principals and altogether "High Jinks" is the joyous musical jollity that it claims to be.

The plot is set in motion in Paris in the flower garden of Dr. Robert Thorne, an American nerve specialist whose patients are among the elite of the French capital. A friend of Dr. Thorne, Dick Wayne, an explorer, has discovered a perfume with the magic property of transforming a pessimist into an optimist, a serious recluse into a jovial man of the world and a prude into a veritable dare-devil. He communicates his discovery to Dr. Thorne, who grasps its splendid possibilities for his practice.

The doctor tries the perfume on one of his pretty female patients, whose husband is a fire-eating Frenchman and many are the resulting complications.

### ELIMINATE RURAL CREDITS FROM APPROPRIATION BILL

WASHINGTON, Mar. 3.—Conferees on the agricultural bill late today agreed to eliminate entirely the rural credits rider to the measure and substitute a provision for investigation of the question of rural credits by a joint congressional commission to report at the next session.

The conference report on the bill was adopted by both senate and house later in the night. The bill appropriates \$22,971,522 for expenses of the agriculture department including \$2,500,000 to fight cattle epidemics. A senate amendment appropriating \$3,000,000 for the Appalachian forest reserve was eliminated.

**WILL PARDON DOUGHERTY.**  
Springfield, Ill., Mar. 3.—Declaring that Newton C. Dougherty, former head of the Peoria schools has already been sufficiently punished in serving seven years in the penitentiary, and that "to punish him further would be a violation of the agreement Dougherty made with former State's Attorney Scholes of Peoria county," Governor Dunne today stated he would grant a pardon to Dougherty as soon as the latter enters upon his second term in the penitentiary.

### WILL RECEIVE SUBSCRIPTION FOR GERMAN LOAN.

Chicago, Mar. 3.—A banking firm announced here today that it would receive subscriptions for the new German imperial government 5 per cent loan of about \$300,000,000.

The German circular issued by the bank says the opportunity to subscribe permits "the Germans in America to show their sympathy for the Fatherland." This is the first public offering of a war loan here by any of the belligerents.

## Young Man :

**YOU** who represent that great throng of good dressers—we're anxious to have your verdict. We're ready with the springtime styles of Society Brand Clothes. We want you to see them because they're *different*.

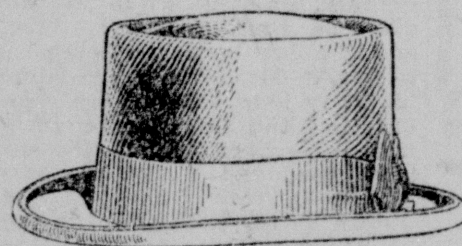

This message is just as full of meaning to the man who is wedded to the custom tailoring idea as to those who have long ago seen the light—and realized that ready clothes like Society Brand are leaving the tailor far behind in the style procession.

Some men have been patronizing tailors so long that it has become a confirmed habit.

If you are one of them we would like to have you come in, not so much to sell you as to give you the surprise of your life.

We want you to slip into a garment or two of Society Brand Clothes and see what the mirrors say. Those mirrors of ours have a way of carrying conviction more forcibly than any human.

You should come here for your new Spring Hat, where there is no apology for not having the style you ask for. Any New Style Spring Hat you want to see is here. Your size all colors, \$1.00 to \$5.00.
